

Eberspaecher's coolant heaters are integrated in the cooling system of the engine. The thermal energy gained is then distributed through the vehicle's own heat exchanger as forced hot air and this heats the interior of the vehicle via existing air vents. The engine is warmed up with the residual heat in the cooling water.

Mountain bike and street trial professional and Eberspaecher brand ambassador **Danny MacAskill**: known from the YouTube hit "Wee Day Out"

DANNY MACASKILL

Even a successful extreme sports athlete and YouTube star such as Danny MacAskill dreads the notorious ice-scraping. He is always looking forward to using his engine pre-heater!

A WORLD OF COMFORT

TREAT YOURSELF TO THIS LUXURY

NO MORE SCRAPING ICE OFF YOUR WINDOWS

So you feel that you have achieved something in your life? You've learnt to appreciate the big and the little pleasures that life offers and use them to your advantage? You know that the most valuable currency of all is your time? Then you and your family should treat yourselves to the luxury and comfort offered by a pre-heater from Eberspächer. Because the days when you had to get up earlier in the morning to scrape ice off your car windows are over.

Instead, you can just get in and feel good, enjoy perfect all-round vision to drive and arrive safely. All this while protecting the environment and your car thanks to the pre-heated engine. Because a pre-heater from Eberspächer is the perfect combination of luxury, comfort and safety. Use the time you save in the morning to share breakfast with your family, go for a run or prepare for your working day.

GREATER COMFORT:

No more scraping ice, a pleasantly warm car, easy operation

GREATER SAFETY:

Clear view of the road, no fogged-up windows, no more wearing of heavy coats behind the wheel

LESS BURDEN ON THE ENGINE:

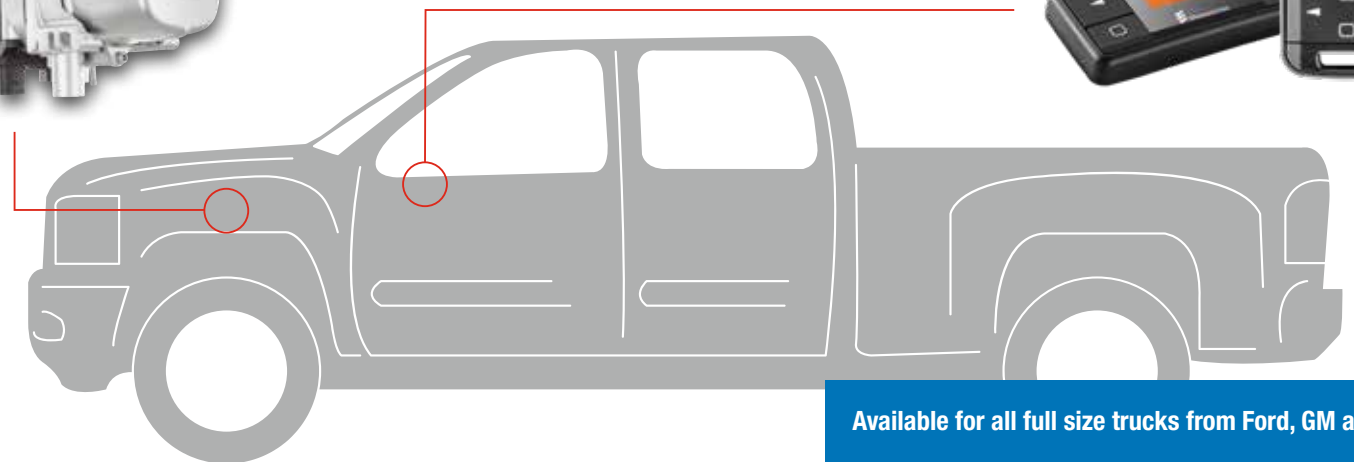

Pre-heated engine, no cold start, protection for the environment

SUPER EFFICIENT HEATING

THE PERFECT PRE-HEATER FOR YOUR PICKUP TRUCK

HYDRONIC PRE-HEATER:

- Water heater installed in the engine's cooling circuit
- The vehicle's heating system passes finely metered quantities of warm air to the car's interior.
- In addition, the pre-heater warms the engine's coolant circuit, thereby preventing harmful cold starts.
- Stepless heating power control
- Instand defrost
- Can be used with gasoline, diesel, E10 and B30 (depending on version)
- Low noise emissions
- Robust design

INTELLIGENT CONTROL

USER-FRIENDLY CONTROL UNITS FOR YOUR PRE-HEATER

EASY START TIMER:

- Fully flexible matrix display resulting in improved usability
- Built-In feedback function
- Capable of operating both heating and ventilation functions
- Additional device (heaters with heating/ventilation functions or A/C units)
- Departure time scheduling
- Adjustment of running time by the minute

EASY START REMOTE+:

Comfort model with display, feedback and integrated timer.

- Range up to 1,000 m
- Compact size
- High-resolution display
- Simple to use
- Timer functions

Available for all full size trucks from Ford, GM and RAM
